Area Variance Application Form

Part 1. Application Notes

An application for an Area Variance is a request for relief from the dimensional or development standards of the USDO for a specific property. An application may be submitted after denial of a proposed project or development by the Chief Planning Official or the Chief Building Official.

- 1. The Board of Zoning Appeals (BZA) reviews the application at a public hearing and makes its decision based on the standards in Section 375-5(E)(21)(c)(i).
- 2. Applicants have the burden to provide evidence of the hardship, to clearly communicate the benefits to be realized by the applicant and that any detriments to community or adjacent property owners are sufficiently mitigated in order for a variance to be approved.
- 3. The BZA is required to grant only the minimum variance that it deems necessary and adequate to address the hardship while preserving and protecting the character of the neighborhood and health, safety and welfare of the community.

4. The decision of the BZA is final and another application for the same or essentially the same approval cannot be submitted within one year from the date of the decision.				
Note: A pre-application meeting is available upon request prior to submitting this application.
