

## 292 Second Street

### Demolition Debris Diversion Plan

- 1) Contract with Demolition Contractor will allow the Demolition Contractor all salvage rights.
- 2) Contractor will remove all accessible metal piping, ductwork, and other metal items and remove to demolition contractor's yard for salvage. Estimated 3% of demolition debris volume.
- 3) Contractor will demolish all concrete and masonry walls and crush it either on site or in the demolition contractor's yard for sale as fill material or reuse on site. Estimated 12% of demolition debris volume.
- 4) Contractor will demolish the concrete slab, concrete walks and crush them either on site or in the demolition contractor's yard for sale as fill material. Estimated 20% of demolition debris volume.
- 5) Balance of material will be removed and disposed of at a construction debris landfill.
