Majesty

Wood Replacement and New Construction Windows

Lower profile lock

High end architectural design features

When the traditional look of genuine wood is preferred, the Harvey Majesty window is your best choice. It combines the warmth and beauty of wood inside with a maintenance free aluminum clad exterior. The Majesty custom wood window offers endless possibilities for your remodeling or new construction plans.

Because Majesty windows are custom made, that means no additional carpentry is required as with other wood windows.

- All Majesty windows are ENERGY STAR® qualified with standard ENERGY STAR glazing
- Interior available prefinished
- Fully weatherstripped
- Recessed hardware for unobstructed views
- Two frame types available: 3-1/4" replacement, 4-9/16" new construction with fin
- Locking fiberglass half screen (double hung)
- Standard top sash lift rail (double hung)
- Top and bottom sash tilt in for easy cleaning (double hung)
- Our high quality prefinished option eliminates the need to paint or provides an ideal base to add custom paint color post-installation

Exterior finish (shown in Forest Green)

Top and bottom sash tilt in

Thermal Performance

For the most up to date structural and thermal performance values, as well as other product specifications, visit harveybp.com.

Glazing	U factor	SHGC	VT	ENERGY STAR Compliance	Glazing	U factor	SHGC	VT	ENERGY STAR Compliance
<u>Double Hung</u> ENERGY STAR	0.27	0.26	0.49	N, NC	<u>Casement/Awning</u> ENERGY STAR	0.26	0.22	0.38	All Zones
<u>Picture</u> ENERGY STAR	0.25	0.27	0.51	N, NC					

ENERGY STAR: This package includes everything that is needed for a product to meet ENERGY STAR requirements. Glazing, gas, glass thickness, etc. will vary by window and usually includes Low-E coating and Argon gas. This glazing package does qualify for ENERGY STAR.

U-factor measures the rate of non-solar heat transfer from one side of the window to the other. Heat transfer implies both heat loss out of a living space during cold weather and non-solar heat gain during hot summer months. The lower the U-factor, the better the performance.

Solar Heat Gain Coefficient (SHGC) measures how well a product blocks heat from the sun. The lower the SHGC, the better a product is at blocking unwanted heat gain.

Visible Transmittance (VT) measures how much light comes through a product. The higher the VT, the more light that comes through.

About Harvey Building Products

Harvey has built a solid reputation as a leading manufacturer and distributor of quality building products. A privately owned and operated business with over 50 years' experience, Harvey Building Products is known for outstanding craftsmanship and superior service as well as standing behind every product we make. In addition to manufacturing durable, attractive windows, doors and porch enclosures, Harvey distributes a full line of highly respected building products to professional contractors and builders throughout the Northeast.

We understand what it takes to be part of your home.™
