AREA VARIANCE APPLICATION

Part 1. Application Notes

An application for an Area Variance is a request for relief from the dimensional or development standards of the USDO for a specific property. An application may be submitted after denial of a proposed project or development by the Chief Planning Official or the Chief Building Official.

- The Board of Zoning Appeals (BZA) reviews the application at a public hearing and makes its decision based on the standards in Section 375-5(E)(21)(c)(i).
- Applicants have the burden to provide evidence of the hardship, to clearly communicate the benefits to be realized by the Applicant and that any detriments to community or adjacent property owners are sufficiently mitigated in order for a variance to be approved.
- The BZA is required to grant only the minimum variance that it deems necessary and adequate to address the hardship while preserving and protecting the character of the neighborhood and health, safety and welfare of the community.
- The decision of the BZA is final and another application for the same or essentially the same approval cannot be submitted within one year from the date of the decision.

Note: A pre-app	lication meeting is a	ıvailable upon reques	t prior to subn	nitting this application).	
		Pai	rt 2. Gene	ral Information		
Project Address:				Tax ID Number(s):		
Zoning District:			Current Principal Use:			
	cribe the variance	e and identify the s		ect Description or requirement(s) o	of the USDO proposed	to be varied):
Lot area	Lot width	Impervious lot	coverage	Height	Minimum setback	Fence/wall standard
Off-street parl	king/loading/circula	tion standard v; must reference a sp		ping/buffer standard	Exterior light	ting standard
0 0	., ,,	he variance is being re		am the osbo).		
Current USDO requ	uirement or standard	d:	<u>'</u>			
Proposed requirem	nent or standard:					
		Part / C	haracter d	of the Neighbor	hood	

Explain why the dimensional alteration being proposed will not result in a structure or a configuration that will be out of place in the neighborhood or zone district (e.g., the structure's overall size and footprint size and placement are similar to the structures on adjacent properties):

Part 5. Alternatives Considered

Describe the benefit to be achieved by the granting of the variance and why such benefit cannot otherwise be reasonably achieved (detail any alternatives that were considered and rejected, and include evidence where necessary to support your conclusions):
