

AREA VARIANCE APPLICATION

Part 1. Application Notes

An application for an Area Variance is a request for relief from the dimensional or development standards of the USDO for a specific property. An application may be submitted after denial of a proposed project or development by the Chief Planning Official or the Chief Building Official.

1. The Board of Zoning Appeals (BZA) reviews the application at a public workshop and public hearing and makes its decision based on the standards in Section 375-5(E)(21)(c)(i).
2. An Area Variance application asks the BZA to change the standard code requirements because of a unique situation. The burden of proof lies with the Applicant and requested variances will only be granted if an application and supporting materials meet the necessary criteria.
3. The BZA is required to grant only the minimum variance that it deems necessary and adequate to address the hardship while preserving and protecting the character of the neighborhood and health, safety and welfare of the community.
4. The decision of the BZA is final and another application for the same or essentially the same approval cannot be submitted within one year from the date of the decision.

Note: A pre-application meeting is available upon request prior to submitting this application.

Part 2. General Information

Project Address: 1009 CENTRAL AVE	Tax ID Number(s): 53-66-3-10a
Zoning District: MU-CH	Current Principal Use: RETAIL

Part 3. Project Description

(Describe the variance and identify the standard(s) or requirement(s) of the USDO proposed to be varied):

Select the type of standard(s) or requirement(s) being varied:

- Lot area
 Lot width
 Impervious lot coverage
 Height
 Minimum setback
 Fence/wall standard
 Off-street parking/loading/circulation standard
 Landscaping/buffer standard
 Exterior lighting standard
 Signage
 Other (Specify; must reference a specific standard in the USDO): _____

Section number of USDO from which the variance(s) is being requested: **375, 409.1**

Current USDO requirement(s) or standard(s): **ONE SIGN 32 SQUARE FEET**

Proposed requirement(s) or standard(s): **3 SIGNS - 2 @ 48' AND ONE AT 75 SQUARE FEET**

Part 4. Character of the Neighborhood

Explain why the dimensional alteration being proposed will not result in a structure or a configuration that will be out of place in the neighborhood or zone district (e.g., the structure's overall size and footprint size and placement are similar to the structures on adjacent properties):

THIS AREA IS HIGHLY COMMERCIAL - THERE ARE MANY SIGNS OVER 32' AND MANY BUSINESSES WITH MULTIPLE SIGNS.

Part 5. Alternatives Considered

Describe the benefit to be achieved by the granting of the variance and why such benefit cannot otherwise be reasonably achieved (detail any alternatives that were considered and rejected, and include evidence where necessary to support your conclusions):

**BENEFIT - GOOD VISIBILITY IN A VERY COMMERCIAL AREA -
 ALTERNATIVES - MAYBE 3 SMALLER SIGNS,**
